

The federal government has made a fiasco of recreational fishermens rights, and now you want to make a fiasco of a familys peace, and privacy rights. Unless you really, and I mean really, know what your talking about "LEAVE NEW JERSEY ALONE". Codey is a man, not a politician, he is people, and he's for the people. He truly seems to care about us, and not whats going into his wallet.

As for me, If Dick Codey was running for President he would have my vote in a heartbeat. I'm a working grandfather, and I know I speak for a lot of grassroots people. It would be wise for Congress to invite Mr Codey, and ask him, what the people of the United States want and need, and maybe, just maybe, you guys can start making the right decisions.

Thank You.
